

The Nebraska Conservation and Soil Survey: The Soil Resources of Nebraska (Classic Reprint)

By G E Condra

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Nebraska Conservation and Soil Survey: The Soil Resources of Nebraska This brief report, prepared to answer some of the many questions which the department receives in regard to the soil resources of Nebraska, is not complete enough to take the place of the detailed soil surveys, such as have been made of twenty-seven counties of the state. It is general and should be so considered. The reader should keep in mind the fact that Nebraska is large and diverse, having an area of 77,510 square miles, an altitude rising from 840 feet in the southeast to 5,340 feet near the western border, land forms varying from smooth plains to mountainous areas, more than 100 kinds of soil, and a rainfall decreasing from 33 inches in the southeast corner to 16 inches at the Wyoming line. County Soil Survey Reports - The State Conservation and Soil Survey, in co-operation with the U. S. Bureau of Soils, has studied, mapped, and described 27 counties of Nebraska. Each county report includes a detailed soil map and shows...

Reviews

Very useful for all group of people. It is amongst the most incredible pdf i actually have read through. Its been written in an extremely straightforward way and it is just right after i finished reading through this pdf by which basically modified me, change the way i think.

-- **Felicia Nikolaus**

These sorts of ebook is the ideal book offered. It can be written in simple terms rather than confusing. I discovered this pdf from my dad and i advised this publication to understand.

-- **Mr. Alejandrin Murphy PhD**
