

Leapfrogging?: India's Information Technology Industry and the Internet

By Robert R. Miller, International Finance Corporation

World Bank Publications, United States, 2001. Paperback. Book Condition: New. New.. 272 x 211 mm. Language: English . Brand New Book. Using India as an example, this paper evaluates the potential benefits that the information technology industry, specifically the Internet, hopes to bring to businesses in developing countries. It concludes that although, in terms of numbers of connections and overall use, Internet development in India is still in the early stages, it offers considerable promise for increased productivity and economic growth.
