

## Impact of Gravitational Lensing on Cosmology (IAU S225) (Hardback)

By -

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2005.  
 Hardback. Book Condition: New. 246 x 176 mm. Language: English . Brand New Book. This book contains the proceedings of the International Astronomical Union Symposium no. 225, held in July 2004 at the Ecole Polytechnique Federale de Lausanne (EPFL), in Lausanne, Switzerland. The meeting focused on the applications of gravitational lensing to cosmological physics, and this book summarizes the most recent theoretical and observational developments. Chapters are written by leading scientists in the field, and cover testing gravitation theory with gravitational lensing; weak gravitational shear and gravitational magnification of galaxies; anisotropy of the cosmological microwave background as a probe of the dark matter power spectrum and the growth rate of perturbations in the universe, and its implications for investigating the properties of dark energy. The properties of dark halos from galaxy to super-cluster of galaxies scales are presented using mass reconstruction techniques. This book is a valuable resource for professional astronomers and graduate students in astronomy, physics and astro-particle physics.

### Reviews

*Unquestionably, this is the best operate by any article writer. It is really basic but surprises from the 50 % of the ebook. I realized this ebook from my i and dad suggested this ebook to discover.*

-- **Kacie Schroeder**

*This pdf could be well worth a read through, and a lot better than other. It is amongst the most incredible publication i have got read through. I discovered this book from my dad and i recommended this publication to discover.*
