Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.quot;Steps to Finding a Job After Collegequot; focuses on how to find a job in today s global society using millennial based tools and processes. While this book was written primarily for a United States audience it is not limited to that audience. In today s technological connected world massive global corporations have operations spanning the planet. Smart phones developed by companies in the USA are manufactured in China. Autos developed in Germany are manufactured in America and so on and so on, the hiring needs have become global. Also, while this book focuses on new college graduates and their job search, this book can also help those with job experience who want to or need to change careers. The only difference with the experienced hires is that they will find a much larger set of job openings than those just starting out. While there are both active and passive ways to find a job, this book focuses on active. Moving to a city, knocking on doors and handing them a resume was the pre-millennial way of actively searching for a job. In this book active is defined as successfully communicating and navigating with job databases to secure a face to face interview using an online tool like Skype. The job hunting world has changed. One of the most challenging elements of actively searching for a job is trying to locate companies that would not be thought of as needing your skill set. The author found while researching for this book that half the battle is thinking about those businesses that are not precisely known for hiring a person with your talents. Anyone with a...
