

## Baby Poop: What Your Pediatrician May Not Tell You .about Colic, Reflux, Constipation, Green Stools, Food Allergies, and Your Child's Immune Health

By Linda F Palmer, DC Linda F Palmer

Sunny Lane Press, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Eat, sleep, and poop. That's what babies do. Every parent has challenges and questions about these activities and there is an abundance of information on eating and sleeping, but poop? The appearance and behavior of a child's stools can give more information about the child's health than any other factor, but we just don't seem to like to talk about it. From an award-winning, three-time author and a mother-Baby Poop brings the hard-to-find facts that equip parents to help their babies be happier and healthier, head off the occasional dire situation, and to optimize their child's lifelong health. Yes-poop. Parents spend inordinate amounts of time worrying about what goes into their babies. All the while, what shows up in baby's diapers provides tremendous cues about baby's digestion, immune functioning, and overall wellness. Baby Poop is about child health dilemmas faced in industrialized nations. These are distinctly different from the challenges in less developed countries, as most of these challenges are caused directly by modernization. Infectious disease rates are high in...
