 English, comment: I have researched on nuclear force, my
 thought is well proved & stimulate others about such
 question. , abstract: Abstract :- it is well established that the
 forces between nucleons are transmitted by meson. The
 quantitative explanation of nuclear forces in terms of meson
 theory was extremely tentative & incomplete but this theory
 supplies a valuable point of view . it is fairly certain now that
 the nucleons within nuclear matter are in a state made rather
 different from their free condition by the proximity of other
 nucleons charge independence of nuclear forces demand the
 existence of neutral meson as amongst the same type of
 nucleolus (P-P) or (N-N). this force demand the same spin &
 orbital angular momentum. The exchange interaction is
 produced by only a neutral meson. The involving mesons
 without electric charge, that it gives exchanges forces between
 proton & Neutron & also therefore maintains charge in
 dependence...
